A train of emigrants passed through town this week going West.

Bogus packages on the sidewalks will be in order next Thursday.

A little child of Mr. Morse, some four years of age, died last Wednesday.

A good many of our people have been quite busy making garden this week.

Judge Talcott was over to Defiance one day this week attending to court business.

Bowling is having his office fitted up in style. The real estate business is looking up.

The repairs that are being made on the old store of Scott Bros. help its appearance very much.

Mrs. Higgins died last Thursday in the 76th year of her age at the residence of her grand son L. L. Low.

J. E. Bryan, County Supt. Public Instruction intends moving from Humboldt to Iowa in a short time.

Mr. M. C. Latta, who sold his farm last winter to Mr. Wolf of Ohio, started on a trip to California last Monday.

W. W. Sain, editor of the Woodson County Post, Neosho Falls, was in our town last Friday and made us a call.

Jas. Rawson is off on a trip to Iowa. Don't suppose there is any danger of him visiting Sioux City and getting the Black Hill fever.

Miss Griffith, who has been living with her brother out on Rock Creek for some time past, started for her home in England last Monday.

When you see three or four persons setting in the sun on the same dry goods box you may rest assured they are discussing the Black Hills.

Allen was over to Fort Scott this week. He brought home with him one of the gang plows manufactured in that city and for which he is agent.

Rev. N. A. Rankins of Edgerton, Kans., will preach at the Presbyterian church to-morrow morning, and at the church at Carlyle in the afternoon.

Ogaw township voted down the proposition to issue relief bonds. It is just as well for the opinion of the Attorney-General would have rendered them worthless.

—Mr. S. G. Cooley is off for the Pacific coast to look at the country and to secure a home there if he is satisfied that he will like that country better than Kansas.

—Eugene Wisner, who attended our public schools this last winter, died last Thursday evening after a few days' illness. He was a young man of talent and great promise.

—Rev. Dr. Hill of Kansas City preached at the Presbyterian church last Sunday to a large audience. After the sermon Mr. J. L. Arnold was installed as a ruling elder in the church.

—Mr. Jas. A. McHenry, editor of the Free Press at Neodesha, and J. W. Sutherland, an attorney of the same place, were in our town this week. They had legal business with Judge Talcott.

—J. H. Collins is at home from Howard county on a visit. He bucked against a saw mill out there which resulted in a broken arm, in consequence of which he is off of duty for a time.

—Only a week from next Monday until the city election, and no announcements yet. So far as we know the present Mayor and Councilmen have given good satisfaction and we suggest their re-election.

—The regular meeting of the Medical Association for the counties of Allen, Wilson and Neosho will be held on the 7th of April next at 10 o'clock A. M. All practicing physicians are cordially invited to attend. D. G. HIMRON, Sec't.

—H. A. Needham, County Clerk, was out in Osage township on official business last Wednesday. He says everybody in that country is busy sowing oats and preparing the ground for corn, castor beans, flax seed, etc.

—H. Bancroft, of the Leland Hotel, started on a visit to California this week. If he finds a place where everybody can be happy and contented and make lots of money without hard work, we presume he will report in due time.

—Our thanks are due Judge D. P. Lowe for Congressional Record containing a complete record of the doings of the 43rd Congress. If Congressmen are to be allowed to send public documents through the mails free we are glad to receive them, but we are opposed to the law granting them this privilege.

—In addition to the oats, flax and castor beans that will be extensively cultivated in our county this summer, a very large number of acres will be planted in corn. Land around here that lay idle last year is being prepared for corn. There is so little old corn in the country that it is likely to bring a good price next fall, no matter how large the crop.

—Quite a large number of people from Osage were in town last Monday as witnesses in the case of the State against Mr. Youngs, which was tried before Justice Low. Mr. Youngs was charged with stealing coal from Mr. Gordon. The evidence was not considered sufficient to convict, so the defendant went on his way rejoicing.

—Wm. Bain who lives four or five miles north-east of Iowa had his house burned last Wednesday morning. The origin of the fire is not known. The family were awakened between two and three o'clock in the morning when the fire was so far advanced that they were unable to save anything excepting part of the furniture. His house was insured for five hundred dollars.

—The April number of Old and New has been received, and its contents are as follows: "A Hundred Years Ago"; "The Possible Bromwich"; "Sir Marmaduke's Musings in 1875"; "The Class of '71" Part III, by Mrs. J. Q. Smith; "The Sand Philosopher," by Louise Stockton; "A Model Old Bachelor"; "The Way We Live Now," by Anthony Trollope; "Rebel Prisons," by William C. Bates.

—John Huff, a deaf and dumb printer, found his way to our office last Wednesday afternoon sad, tired and hungry; but after supper, bed and breakfast at one of our hotels he reported next morning in good spirits and full of hope as to the future. He was going to count the crosses on the railroad between here and Humboldt, and from there he was going to make his way out west and at some point on the Atchison, Topeka & Santa Fe road he would start a newspaper. When he left us John had, according to his statement, sixty cents in money, and with this amount of finances he is not afraid to penetrate the grasshopper region and start a newspaper.

DISTRICT COURT. The March term of the District Court will, undoubtedly, adjourn to-day. The docket was not so large as it was last fall, and the business would have been completed last week except that some cases were set by agreement of parties to be tried this week by the court, without the intervention of a jury. The jury cases were tried as quickly as possible, so that the seemingly protracted session has been without additional expense to the county. Only one criminal case appeared upon the docket. That was where the defendant was charged with committing upon the prosecuting witness "an assault, with an intent to make him (the prosecuting witness) sup or sow." As the law will not interfere with a man's diet, or make any suggestions as to what he shall have for supper; and as, in these starving times, now is taken at every meal; the county attorney concluded that the intent was not criminal, and, at his suggestion the defendant was discharged.

The most interesting civil cases were those of Amanda Moore vs. Thos. H. Moore et al., and of William Williams vs. Sprague & Merritt. The first was an ejectment suit, in which the "little widow" recovered forty acres of quite valuable land, which the defendants claimed to own by reason of being the heirs of a deceased Moore. Cates & Keplinger were for the plaintiff, and Smith & Amos for the defendants. The second case was for the recovery of something over \$500, which plaintiff claimed to be due him from the defendants on a cattle trade. The defendants were sued as partners. Merritt denied the partnership, and insisted that he had nothing to do with the transaction. The case was bitterly contested, each side being ably represented—Messrs. Murray & Richards and Col. Thurston being for plaintiff, and Esq. Pulver and Messrs. Cates & Keplinger for defendant. The regular Judge having been of counsel in the case, Col. Mason was selected as Judge pro tem., and presided during the trial. The jury found for the plaintiff. Last Wednesday, a motion for a new trial was argued and, although the chances were close, the Judge refused to grant it; so that the case will in all probability go to the Supreme Court.

Two divorces were granted, and two marriageable young widows with hearts that beat as one with experience, are now in condition to begin legitimate sparking. A number of other cases of interest were disposed of. Judge Talcott manifested a genuine spirit of reform in endeavoring to have all business transacted promptly and with the least possible expense to the county. The Judge is not puffed up with the honors of his position, and while he presides with all necessary ability his actions are marked by those pleasant and genial social qualities for which he is noted.

STATE NEWS. Leavenworth has a bag factory. Holton has the Black Hill fever. La Cygne was laid out five years ago. The Neosho has a good stage of water. Topeka claims seventy-one attorneys. Hiawatha is to have another railroad. Egg thieves are the latest in Wamego. Topeka has \$8,000 of outstanding scrip. Council Bluffs is excited over tin mines. They say there is chalk in Trego county. Brown county is to have another cheese factory. B. F. Akers, of Lawrence, has gone to Denver. Albert Gore retires from the La Cygne Journal.

The erection of an elevator is talked of at Emporia. The Atchison Champion predicts a wet season. Signior Blitts is in Fort Scott. More Spiritualism. Woodson county is without jail or poor house. Texans want to bring sheep into Saline county. Judge Lowe's family will not go to Salt Lake. Emporia is courting the trade of the Mennonites. Prayers for the recent Legislature cost the State \$300. An increase of cattle trade is anticipated this year. Col. Tom Anderson is mentioned for Mayor of Topeka. Baxter Springs ships six car loads of railroad ties per day. There are seven good water mills in Montgomery county. It is proposed to move Highland University to Leavenworth. After April 1st, the unlicensed dogs of Lawrence will be killed. The A. T. & S. F. have greatly reduced coal and grain rates. Senator Bruce of Mississippi was formerly a resident of Lawrence. The Kingsley Reporter, reports plowing and gardening week before last. The State Board of Agriculture will take the census of the State in May. The Clyde Reporter receives enough original poetry to wrap up its mail in. A son of old man Bender has been appointed postmaster in Norton county. A school teacher, near St. Marys, carries a revolver to keep his scholars quiet. Topeka will have a hard time settling upon the location for her public buildings. Sol. Miller, hearing of "a dog after Landseer," wanted to know what he was after him for. The Kansas Pacific proposes to build a ten stall round house at Armstrong, to cost \$20,000. The Observer says emigrant wagons pass through Pleasanton at the rate of twenty to thirty per day. Four hundred men are employed in the Osage City coal mines. They are working five shafts. Elk Falls, Howard county, according to the Ledger expects a season of unprecedented prosperity. The Kansas City Papers state that the Kansas Pacific offices are to be removed to Armstrong in this State. Prentiss, of the Commonwealth, thinks it is time that six bits charge for a meal in Kansas was played out. Amos Sanford once known in this state as the "Patrick Henry of the neutral lands," has removed to Quincy Ill. Mr. Gilchrist of Emporia, went fishing for rats recently and to the disgust and annoyance of the family caught a skunk. Leavenworth is infested with high bred chicken thieves. They take only the game fowl, discarding the common breeds. The law in regard to the salary of county superintendents does not take effect until after publication in the statute book. Work has commenced on the last pier of the bridge over the Missouri river now being built at Atchison. Trains will cross upon the bridge by the last of June.

The season of the year has arrived when trees are to be planted. The sooner this is done, after the frost is out of the ground, the better. Twenty families of colored people, a portion of a colony from Tennessee, have arrived and have bought land in the vicinity of Baxter Springs. The Fort Scott Monitor says the disposition of the Pomeroy business was disgraceful to the State. Public opinion on that point somewhat differs. The Holton Express is informed that the warm weather Friday and Saturday of last week had the effect to hatch out immense quantities of grasshoppers in the Delaware river bottom, some twelve miles north-east of Holton, but that the cold snap of Monday and Tuesday settled them.

Americans are a Nation of Dyspeptics. We live fast, dissipate and fill early graves. We drink all kinds of alcoholic spirits, and swallow without mastication, pork, grease, and every kind of life-destroying, system-clogging, indigestible food. Dr. Walker's Vegetable Compound will remove the evil effects and the recovered patient, with pure, vitalized electrical blood flowing through his veins, will have a clearer head and a cooler judgment, which added to experience, will cause him to abstain in the future.
